Woodrow Place, off Pennygate

is within easy walking distance of Spalding town centre where the River Welland, with its pretty riverside walks and Water Taxi service, flows through the town alongside the Georgian market place.

Recently listed in the national press as one of the best places to live in England, it is easy to see why Spalding is so popular.

In the heart of the Fens with its picturesque rural landscape, the town offers good public transport and road links, excellent primary and secondary schools, a selection of recreation and leisure facilities as well as a good range of shops. The people of Spalding really do enjoy the best of both worlds.

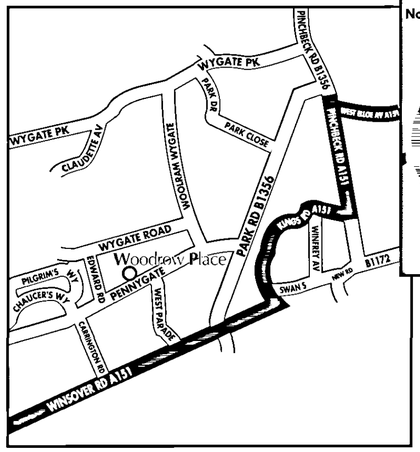

Woodrow Place is Broadgate Homes' latest development within Spalding. Broadgate has been building quality, award winning, traditionally built homes in the town for over 25 years and has an enviable reputation for design.

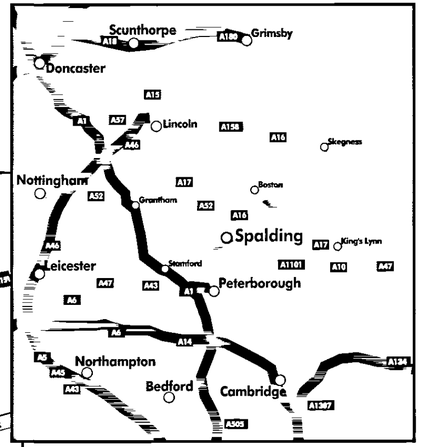

Over the years people making their home in Spalding have wanted it built by Broadgate.
