Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. View government planning guidance on fire statements or access the fire statement template and guidance.
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or view government planning guidance on determination periods.

Description

Please describe details of the proposed development or works including any change of use

The surface of Crackpol lane is currently constructed of Marshal Drivesett® Tegula Original block paving cobbles. The condition of the surface is currently a H&S risk due to movement of cobbles caused by a combination of sinking and turning of cars/lorries. Please see attached pictures.

This area is a pedestrian cut through from Broad Street to Market Place. The gaps are a particular risk to those wearing heels, in some places the gaps are now 7cm wide.

We have had specialist contractor look at the condition of the surface one option to rectify the issue is to take up and relay all the cobbles. They have however stated that this will not last in the long term due to the shape of the cobbles not interlocking and constant vehicle movement on them will result in them moving and sinking again.

The reason for this planning application is to approve the use of Tarmac as an alternative road surface. This would result in a smooth and safe surface for both vehicles and pedestrians and provide the College with a long-term maintainable surface.

We obtained Pre-Planning Advice (Ref. PE-00011-22) and there we no objections to the proposal.

Has the work or change of use already started?

Details of the pre-application advice received

The pre-application proposal seeks to relace the existing cobbled driveway at the Boston College Crackpool Lane in spalding.
We have received advice from highways, who confirmed that there were no signs of surface water flooding in the area to be aware of, as the proposed tarmac would be less permeable than that of the exisitng cobbled permeable paving. Therefore, the proposed tarmac would be acceptable.
As the college is within the Spalding Conservation Area, I have also consulted with the Conservation Officer, who confirmed: "Whilst it would be regrettable to see the loss of cobbling in the setting of the CA, I would say that because the cobbled surface appears relatively recent, and the area effected is, ultimately, only a small portion of the CA?s hardstanding area, the replacement with standard, traditional macadam would be acceptable, and I wouldn?t seek to raise any objections in light of the details and information currently available to me."
Planning permission will be needed for laying traditional, impermeable driveways that do not provide for the water to run to a permeable area.
This planning advice is given in good faith but is an officer opinion only and therefore is not binding on any formal decision the Council may make following the receipt of a planning application.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:
(a) a member of staff
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

◯ Yes
⊘ No
