CASE OFFICER ASSESSMENT

Proposal

Conservatory with dimensions of 3m x 3m x 2.85m to ridge to side of a detached house. Would be set in 1.4 m from side boundary with 10m to rear boundary.

Site Description

Detached house on a corner plot within a modern residential development. Boundary to Hoekman Way comprises fencing and hedging.

History

None relevant.

Consultation Responses

None.

Planning Considerations

Layout, Design, Size and Scale

Paragraph 127 of the National Planning Policy Framework (NPPF), 2019 establishes that planning policies and decisions should ensure that developments will function well and add to the overall quality of the area; are visually attractive as a result of good architecture and sympathetic to local character and history, including the surrounding built environment and landscape setting; and create places that are safe, inclusive and accessible and which promote health and well-being, with a high standard of amenity for existing and future users, among other considerations. Likewise, Policy 2 of the SELLP states that design which is inappropriate to the local area, or which fails to maximise opportunities for improving the character and quality of an area, will not be acceptable.

The proposed conservatory would be located to the side elevation and be modest in scale, set in from the boundary screened by hedging and fencing. It is therefore considered acceptable in terms of size and scale.

Facing brickwork and cream UPVC fenestration would match those existing in the property. Thus, the development appears well blended with the fabric of the house and visual amenity is not undermined.

Taking the above into account, the replacement conservatory is deemed to comply with Policies 2 and 3 in the SELLP, 2019 and Section 12 in the NPPF, 2019 in terms of layout, design, size and scale.

Impacts upon Residential Amenity

Given, this is a corner plot and the 10m distance to the rear boundary, together with existing boundary treatment there is not considered to be an adverse impact on residential amenity.

Taking the above into account, the proposed conservatory is considered to comply with Policies 2 and 3 in the SELLP, 2019 and Section 12 in the NPPF, 2019 in terms of residential amenity.

Planning Balance

Section 38 (6) of the Town and Country Planning Act, as amended by the 2004 Act, states that the determination must be made in accordance with the development plan unless material considerations indicate otherwise.

The proposed conservatory would not materially harm the character or appearance of the locality or amenity of nearby residents. It is therefore considered to be in accordance with Policies 2 and 3 of the South East Lincolnshire Local Plan, 2019.

Conclusion

The recommendation is for a delegated approval.

Additional Considerations

Public Sector Equality Duty

In making this decision the Authority must have regard to the public sector equality duty (PSED) under s.149 of the Equalities Act. This means that the Council must have due regard to the need (in discharging its functions) to:

A. Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act

B. Advance equality of opportunity between people who share a protected characteristic and those who do not. This may include removing or minimising disadvantages suffered by persons who share a relevant protected characteristic that are connected to that characteristic; taking steps to meet the special needs of those with a protected characteristic; encouraging participation in public life (or other areas where they are underrepresented) of people with a protected characteristic(s).

C. Foster good relations between people who share a protected characteristic and those who do not

including tackling prejudice and promoting understanding.

The protected characteristics are age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation.

The PSED must be considered as a relevant factor in making this decision but does not impose a duty to achieve the outcomes in s.149. It is only one factor that needs to be considered, and may be balanced against other relevant factors.

It is not considered that the recommendation in this case will have a disproportionately adverse impact on a protected characteristic.

Human Rights

In making a decision, the Authority should be aware of and take into account any implications that may arise from the Human Rights Act 1998. Under the Act, it is unlawful for a public authority such as South Holland District Council to act in a manner that is incompatible with the European Convention on Human Rights. The Authority is referred specifically to Article 8 (right to respect for private and family life) and Article 1 of the First Protocol (protection of property).

It is not considered that the recommendation in this case interferes with local residents' right to respect for their private and family life, home and correspondence, except insofar as it is necessary to protect the rights and freedoms of others (in this case, the rights of the applicant). The Council is also permitted to control the use of property in accordance with the general public interest and the recommendation is considered to be a proportionate response to the submitted application based on the considerations set out in this report.
