For/Against Objections

1. Condition 10 of H16-0272-15 requires the cycle storage to be secure. The submitted details are not clear about how cycles will be kept securely. 2. The cycle storage should be covered in order to protect cycles from bad weather (See policy 31 of the emerging Local Plan. SHDC's advice note refers <http://www.sholland.gov.uk/CHttpHandler.ashx?id=4841&p=0> 3. Concrete blocks with wheel-slots are unsatisfactory because wheels can easily become bent. "Sheffield" type stands are much better.
