To whom it may concern

Re: The Pond, Magellan Way, Spalding PE11 2FG

We write to obtain consent for maintenance work required to be carried out on trees at the above site.

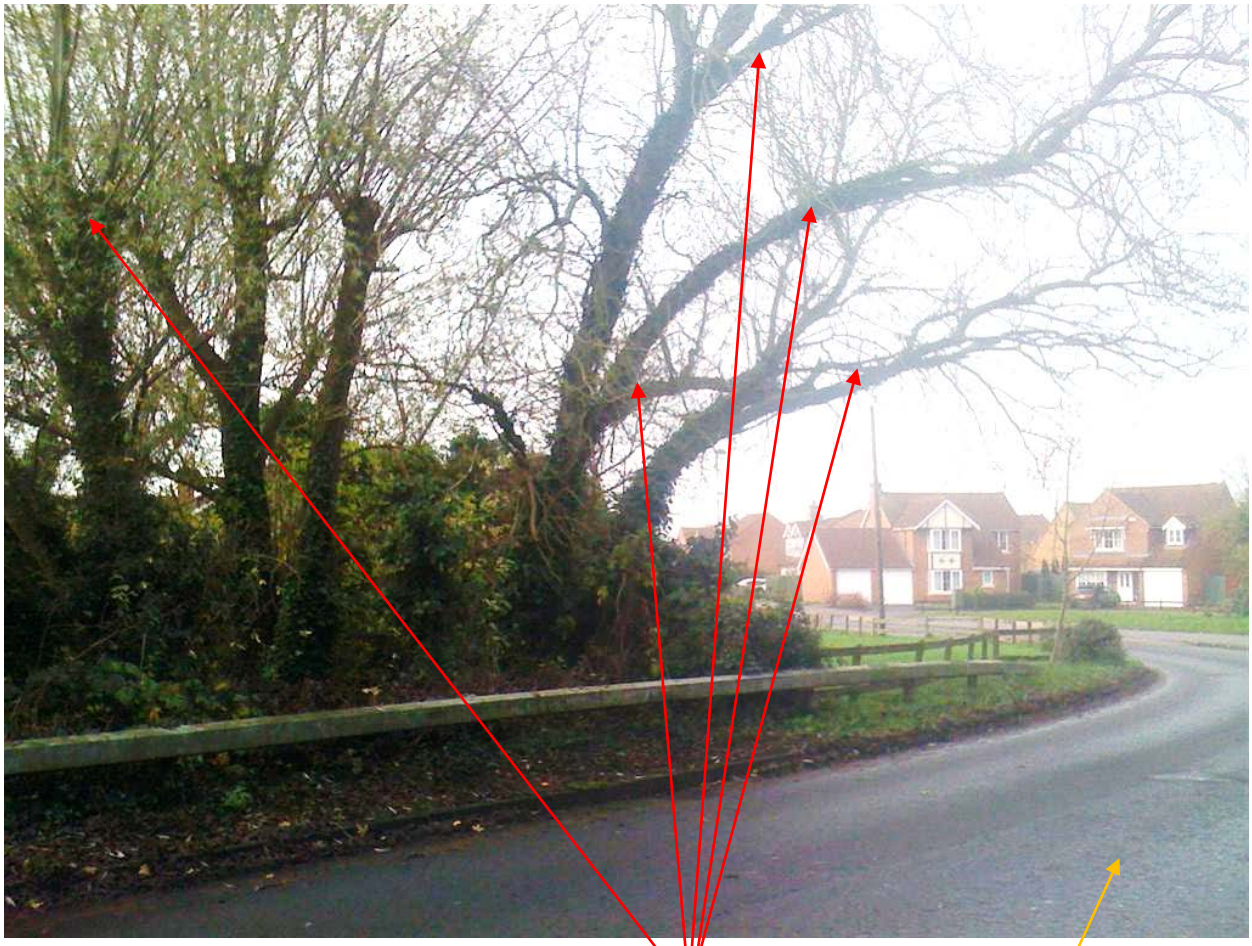

Two trees require attention, both of which are within a group Tree Preservation Order tree belt along the western side of the site, between the pond and Magellan Way. Both trees are in the north eastern corner of the site.

Tree No. 1 Ash – Cut back branches in line with verge which overhanging Magellan Way Road, leaving tree proportionally balanced.

Tree No. 2 Willow – Cut back branches in line with verge which overhand Magellan Way Road.

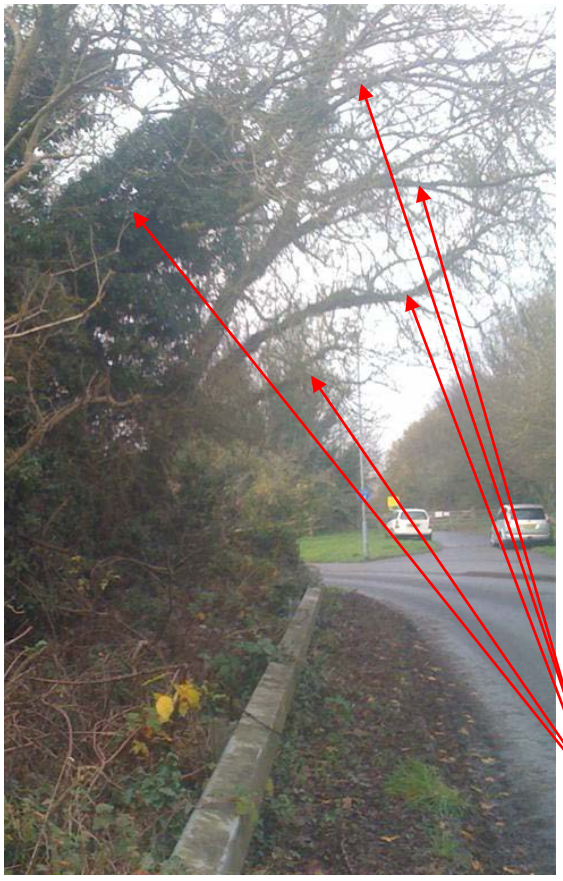

Site location plan illustrating position of trees

Cut back over hanging branches

Magellan Way

Cut back overhanging branches

civil engineering & building

- Industrial, commercial, agricultural and domestic building design
- Foundation design and ground improvements
- Highway engineering
- Retaining walls
- Sheet piling
- Bridges
- Earth impounding structures
- Infrastructure planning and design
- Civil engineering quantity surveying
- Architectural design of industrial buildings
- Planning applications for industrial buildings

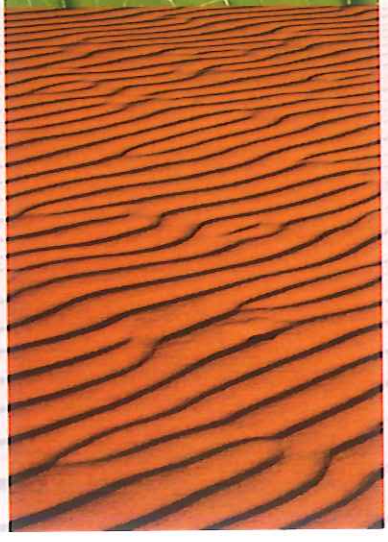

structural engineering

- Structural design in steel, concrete, timber, alloys and masonry
- Structural surveys and structural suitability surveys
- Building regulation applications
- Structural failure studies
- Subsidence claims
- Temporary works design
- 3D finite element analysis
- Structural monitoring
- Professional expert for litigation
- Structural enhancement / remedial work
- Historic building advice

environmental engineering

- Contaminated land investigations
- Drainage scheme design
- Foul & surface water sewer design
- Flood Risk Assessments
- Environmental Impact Assessments
- Environmental permits
- Water supply, treatment, storage & distribution
- Effluent treatment & disposal
- Environment Agency consent to discharge
- Urban drainage & flood alleviation
- Tree surveys

surveying land & buildings

- Geomatic/topographical site surveys
- Buildings, road and earthworks set out
- 3D digital terrain modelling
- Volumetric analysis
- Site area computations
- Flood risk surveys using GPS active network
- Measured building floor plans and elevation surveys
- As built record surveys
- Land transfer plans to land registry requirements
- Assistance in land boundary disputes
- Sewerage network surveys
- Deterioration monitoring
- Preparation of asset plans
