Description of the Proposal

Please indicate all those matters for which approval is sought as part of this outline application (tick all that apply)

- [x] Access
- [ ] Appearance
- [ ] Landscaping
- [ ] Layout
- [ ] Scale

Note: if this application is approved, the matters not determined as part of this application will need to be the subject of an "Application for approval of reserved matters" before the development may proceed.

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. View government planning guidance on fire statements or access the fire statement template and guidance.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or view government planning guidance on determination periods.

Description

Please describe the proposed development

Erection of buildings to comprise up to 70,000 square metres (Gross Internal Area) of Class B8 (storage or distribution) floorspace to include ancillary Class E(g) (office) floorspace and provision of associated Infrastructure including utilising existing vehicular access from B1173. Outline with means of access to be considered.

Has the work already been started without planning permission?

- ○ Yes
- ◉ No

Site Area

What is the measurement of the site area? (numeric characters only).

18.62

Unit

Hectares

Existing Use

Please describe the current use of the site

In terms of characteristics, the Site can generally be divided into three areas. The western c.10%, located west of PRoW Spal/894/1 mostly comprises a grassed paddock, with mature trees present in the north and adjacent to the PRoW. Immediately east of the PRoW, a large bund extends from the Site entrance in the south-west up to the north-western boundary, before returning in an easterly direction for approximately 100m; The area west and south of the bund comprises derelict land surfaced with bare soil (made ground), with the main site access from the B1173 present in the south west. This comprises around c.15% of the total Site area and can reasonably be considered to amount to previously developed or 'brownfield' land. The remaining c.75% of the Site, north and east of the area of previously developed land, comprises arable farmland. Two drainage ditches cross the farmland trending roughly west to east, with further ditches present along the north, south and eastern boundaries. Overhead electricity cables cross the north west of the Site.

Is the site currently vacant?

◯ Yes
⊘ No

Does the proposal involve any of the following? If Yes, you will need to submit an appropriate contamination assessment with your application.

Land which is known to be contaminated

◯ Yes
⊘ No

Land where contamination is suspected for all or part of the site

◯ Yes
⊘ No

A proposed use that would be particularly vulnerable to the presence of contamination

◯ Yes
⊘ No

Pedestrian and Vehicle Access, Roads and Rights of Way

Is a new or altered vehicular access proposed to or from the public highway?

⊘ Yes
◯ No

Is a new or altered pedestrian access proposed to or from the public highway?

⊘ Yes
◯ No

Are there any new public roads to be provided within the site?

◯ Yes
⊘ No

Are there any new public rights of way to be provided within or adjacent to the site?

◯ Yes
⊘ No

Do the proposals require any diversions/extinguishments and/or creation of rights of way?

◯ Yes
⊘ No

If you answered Yes to any of the above questions, please show details on your plans/drawings and state their reference numbers

It is proposed to utilise the existing vehicular access that has already been constructed on the B1173 with a ghost island right turn lane arrangement. The existing access falls within the extent of the highway maintainable by Lincolnshire County Council, as highway authority, at the public expense. It is therefore part of the adopted highway. The access has been designed for use by the types of vehicles that would access the proposed development, including the forecast HGV movements.

Vehicle Parking

Does the site have any existing vehicle/cycle parking spaces or will the proposed development add/remove any parking spaces?

Materials

Does the proposed development require any materials to be used externally?

- [x] Yes
- [ ] No

Please provide a description of existing and proposed materials and finishes to be used externally (including type, colour and name for each material)

Type:
Walls

Existing materials and finishes:
n/a

Proposed materials and finishes:
All materials are high quality products for business or employment applications: • Profiled or flat metal cladding • Large format window and curtain walling systems • Feature building elements in strong colours or accent materials Grey neutral colours are predominant colours on buildings of this nature and provide a common back drop theme of cladding, windows and roofing. Used in conjunction with gradated greens and timber effect cladding the units will be sympathetic to their surroundings. The use of stronger accent colours will be kept to a minimum to avoid conflict in building appearance, however strong signage zones will be encouraged to promote end user identity. Darker cladding materials at lower levels help ground the building within its setting and provide a contemporary building aesthetic, with lighter cladding materials at higher levels assist in reducing the scale of the building when viewed from distance.

Are you supplying additional information on submitted plans, drawings or a design and access statement?

- [x] Yes
- [ ] No

If Yes, please state references for the plans, drawings and/or design and access statement

Please refer to Design and Access Statement prepared by UMC Architects.

Foul Sewage

Please state how foul sewage is to be disposed of:

- [x] Mains sewer
- [ ] Septic tank
- [ ] Package treatment plant
- [ ] Cess pit
- [ ] Other
- [ ] Unknown

Are you proposing to connect to the existing drainage system?

- [x] Yes
- [ ] No
- [ ] Unknown

If Yes, please include the details of the existing system on the application drawings and state the plan(s)/drawing(s) references

Please refer to the submitted Flood Risk Assessment prepared by Eastwood Consulting Engineers.

Foul effluent will discharge via pumping to the 150mm diameter foul sewer in Fen End Lane, north-west of the site, at manhole MH2100 located at national grid reference TG 24296 20147, as stipulated by Anglian Water.

The foul water discharge rate is to be set by Anglian Water, with associated emergency storage determined, at the detailed design stage as stipulated by Anglian Water.

It is expected that the foul drainage system will be privately managed.

Assessment of Flood Risk

Is the site within an area at risk of flooding? (Check the location on the Government's Flood map for planning. You should also refer to national standing advice and your local planning authority requirements for information as necessary.)

- [x] Yes
- [ ] No

Is your proposal within 20 metres of a watercourse (e.g. river, stream or beck)?

- [x] Yes
- [ ] No

Will the proposal increase the flood risk elsewhere?

- [ ] Yes
- [x] No

How will surface water be disposed of?

- [x] Sustainable drainage system
- [x] Existing water course
- [ ] Soakaway
- [ ] Main sewer
- [ ] Pond/lake

Trees and Hedges

Are there trees or hedges on the proposed development site?

- [x] Yes
- [ ] No

And/or: Are there trees or hedges on land adjacent to the proposed development site that could influence the development or might be important as part of the local landscape character?

- [x] Yes
- [ ] No

You may need to provide a full tree survey, at the discretion of the local planning authority. If a tree survey is required, this and the accompanying plan should be submitted alongside the application.

The local planning authority should make clear on its website what the survey should contain, in accordance with the current 'BS5837: Trees in relation to design, demolition and construction - Recommendations'.

Biodiversity and Geological Conservation

Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

To assist in answering this question correctly, please refer to the help text which provides guidance on determining if any important biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.

a) Protected and priority species

- [x] Yes, on the development site
- [ ] Yes, on land adjacent to or near the proposed development
- [ ] No

b) Designated sites, important habitats or other biodiversity features

- [x] Yes, on the development site
- [ ] Yes, on land adjacent to or near the proposed development
- [ ] No

c) Features of geological conservation importance

- [ ] Yes, on the development site
- [ ] Yes, on land adjacent to or near the proposed development
- [x] No

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply?

- [x] Yes
- [ ] No

Please provide the pre-development biodiversity value of onsite habitats on the date of calculation

44.51

Please provide the date the onsite pre-development biodiversity value was calculated

12/03/2026

Note: This should be either the date of the application, or an earlier proposed date

If an earlier date, to the date of the planning application, has been used, please provide details why this date has been used

An update detailed baseline habitat survey was undertaken on 12th March 2026, based on the UK Habitat Classification methodology (UK Hab)2, which forms the basis of the Statutory Biodiversity Metric Calculation Tool (SMBCT). During the survey, the habitat types present within the planning application site boundary were identified, characterised, and accurately mapped.

When was the version of the biodiversity metric used published?

03/07/2025

Please provide the reference or supporting document/plan names for the:
i. Biodiversity metric calculation
ii. Onsite irreplaceable habitats (if applicable)
iii. Onsite habitats existing on the date of the application for planning permission (if applicable)

Note: You must supply a complete biodiversity metric calculation with your application. Plans must be drawn to an identified scale, and show the direction of North.

Has there been any loss (or degradation) of any onsite habitat(s), resulting from activities carried out before the date the onsite pre-development biodiversity value was calculated. Either:
- on or after 30 January 2020 which were not in accordance with a planning permission; or
- on or after 25 August 2023 which were in accordance with a planning permission?

◯ Yes
⊘ No

Does the development site have irreplaceable habitats (corresponding to the descriptions in Column 1 of the Schedule in the Biodiversity Gain Requirements (Irreplaceable Habitat) Regulations (2023)) which are:
i. on land to which the application relates; and
ii. exist on the date of the application for planning permission, (or an earlier agreed date)

◯ Yes
⊘ No

Waste Storage and Collection

Do the plans incorporate areas to store and aid the collection of waste?

⊘ Yes
◯ No

If Yes, please provide details:

Waste will arise form the proposed development and detailed consideration will be given to the storage and collection of waste as part of a subsequent application for the approval of reserved matters.

Have arrangements been made for the separate storage and collection of recyclable waste?

⊘ Yes
◯ No

If Yes, please provide details:

Recyclable waste will arise form the proposed development and detailed consideration will be given to the storage and collection of waste as part of a subsequent application for the approval of reserved matters.

Residential/Dwelling Units

Does your proposal include the gain, loss or change of use of residential units?

◯ Yes
⊘ No

All Types of Development: Non-Residential Floorspace

Does your proposal involve the loss, gain or change of use of non-residential floorspace?
Note that 'non-residential' in this context covers all uses except Use Class C3 Dwellinghouses.

⊘ Yes
◯ No

Please add details of the Use Classes and floorspace.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:
(a) a member of staff
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

Ownership Certificates and Agricultural Land Declaration

Certificates under Article 14 - Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended)

Please answer the following questions to determine which Certificate of Ownership you need to complete: A, B, C or D.

Is the applicant the sole owner of all the land to which this application relates; and has the applicant been the sole owner for more than 21 days?

⊘ Yes
◯ No

Is any of the land to which the application relates part of an Agricultural Holding?

◯ Yes
⊘ No

Certificate Of Ownership - Certificate A

I certify/The applicant certifies that on the day 21 days before the date of this application nobody except myself/ the applicant was the owner* of any part of the land or building to which the application relates, and that none of the land to which the application relates is, or is part of, an agricultural holding**

*** "owner" is a person with a freehold interest or leasehold interest with at least 7 years left to run.**

**** "agricultural holding" has the meaning given by reference to the definition of "agricultural tenant" in section 65(8) of the Act.**

NOTE: You should sign Certificate B, C or D, as appropriate, if you are the sole owner of the land or building to which the application relates but the land is, or is part of, an agricultural holding.
