We are pleased to see that cycle parking for staff and visitors is included in this application. However, the site is accessed from a fast, busy stretch of the B1173 and the application makes no proposals for safe access to the site by bicycle. It therefore fails to comply with the following parts of the Local Plan: Strategic Priority 11 which concerns access to jobs, services and facilities by sustainable transport; Policy 3 which requires accessibility by a choice of travel modes including cycling.
