necessary

Proposed replacement
tree(s)*

Eucalyptus Tree

The tree is dead and
needs to be taken down
because of the danger
of falling branches.

A tree that is
resistant to
honey fungus.

(Separate sheets can be attached if more room is needed)

* If you want to cut down a tree we will usually require you to replace it. Normally we will ask you to plant a young tree (at least 1.5 metres high) of the same species that you have cut down, as near to where the original tree was located as is practicable. Suitable species may be allowed instead of the same species. Please give details of the replacement tree to plant as a replacement.

Signed.
