Thank you for consulting us on this.
Having reviewed the application documents and the updated available Historic Environment information for this application, the proposal is unlikely to have an impact on significant archaeological remains. Consequently, no further archaeological input is necessary for this application. It is not necessary to consult us on this application again, unless there are material changes to the proposals. However, if you would like advice from us, please contact us to explain your request.
Finally, considering the proposal is within the Spalding Conservation Area and that "the mural will be fixed to a modern curtilage wall associated with The Limes at 12 Double Street, which is a Grade II* listed building where it will be accessible and visible to the public on the highway," the SHDC Conservation Officer must be consulted before a decision is made in relation to any potential indirect (setting) impact.
