Dear Rob,

H16-0552-26

Care Home Development off Shakespeare Way, Spalding

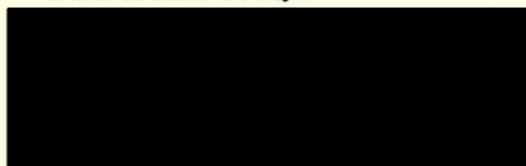

Having been contacted by a constituent I write regarding the above planning application.

Nearby residents are concerned about the increase in traffic movements on residential roads, along with safety concerns about visibility as there is a 90 degree blind bend at Ambassador Walk within 50 yards of the proposed vehicular entrance. In addition, the entrance does not appear wide enough to allow vehicles to enter and exit safely.

The issue of noise from the heat pumps has been brought to my attention. These pumps can be noisy and need to be sited away from existing homes.

I would be grateful if these matters could be considered during the planning process.

Yours sincerely,

The Rt Hon Sir John Hayes CBE MP
South Holland and The Deepings
