7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).
Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.
E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

Trimming down the tree. To supply a suitably competent and NPTC / Lantra qualified tree team to attend site to undertake the crown reduction of 3 mature Acer psuedoplatinus growing to the northern boundary of the site adjoining 57 Albion Street following a complaint from the neighbour. The complaint regards the amount of light lost and the sticky residue left on their cars. The residue is a result of aphid excreta which are living on the leaves of the trees and not the trees sap as the neighbour reported. Team to access trees using rope and harness climbing techniques to reduce the crown width of each tree by approx 3m off each limb and 4m in height following arboricultural best practice. Limbs to be reduced to suitable growth points with cut material lowered to ground level using lowering ropes. Smaller overhang to neighbouring garden to be removed while on site. All green waste to be chipped into vehicles for disposal off site at an authorised green waste recycling facility. Please note it may be necessary to access the neighbouring property to ensure full clean up, also Cars to be removed for the duration of the works, AW to organise with neighbour.

8. Trees - Additional Information

For all trees
A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.

For works to trees covered by a TPO
Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the necessary evidence to support your proposals. (See guidance notes for further details)

1. **Condition of the tree(s)** - e.g. it is diseased or you have fears that it might break or fall:
   If YES, you are required to provide written arboricultural advice or other diagnostic information from an appropriate expert. ○ Yes ◉ No

2. **Alleged damage to property** - e.g. subsidence or damage to drains or drives. ○ Yes ◉ No
   If YES, you are required to provide for:

   Subsidence
   A report by an engineer or surveyor, to include a description of damage, vegetation, monitoring data, soil, roots and repair proposals. Also a report from an arboriculturist to support the tree work proposals.

   Other structural damage (e.g. drains, walls and hard surfaces)
   Written technical evidence from an appropriate expert, including description of damage and possible solutions.

Documents and plans (for any tree)
