Description of Proposed Works

Please describe the proposals to alter, extend or demolish the listed building(s)

We are looking to replace the main slate roof as soon as possible because it is in a state of disrepair.

We are ready to get started on this but we need confirmation on which slates we can use. Previously, we asked Greg if we could use a fibre cement slate, which was rejected, and he advised that if we 'seek to replace the roof, only a matching, genuine, natural slate would be considered appropriate'.

We can not find reclaimed slates anywhere and hence the next best natural slate option would be a Kennack Pre-holed Mixed Spanish Natural Slate - 400mm x 200mm. My question therefore is, would these slates be an acceptable replacement?

We are not making any structural changes to the building or roof, but simply replacing the slates. The roof repairs are urgent and are continuing to cause problems, as well as safety concerns, and so once we get this confirmation we can begin the replacement.

Strongly recommended that natural slates are used. Said slates tiles should seek to replicate a traditional appearance.
