Hello David

The existing 1200 wide windows have no soldier courses over and we don't intend to alter these.

The two 2400 wide windows to the ground floor have a soldier course the full width of the windows which, when we reduce the opening width to 1200mm, will be replaced with stretcher courses and retain the soldiers over the windows only.

I trust this clarifies our proposal to you.

Regards

Andrew

Subject: Condition Compliance Application H16/0742/09 - Details of window frames/headers, The Lanterns, Stonegate, Spalding

DETERMINED
PLAN

Dear Andrew,

Concerning the above application, can you please provide further details of the proposed headers above the windows.

In particular, will the smaller central windows have any form of header?

Concerning the two larger windows at ground floor level, the soldier arches will need to be reduced in size in line with the width of the window.

I look forward to hearing from you on the matter.

Regards.

David Gedney.
