- Refuse or Slag Heap
- Pole
- Saltings
- Direction of Flow of Water
- Marsh
- Shingle
- Sand
- Cutting
- Embankment
- Standard Guage Multiple Track
- Road Under
- Road Over
- Level Crossing
- Foot Bridge
- Standard Guage Single Track
- Siding, Tramway or Mineral Line
- Narrow Guage

**ORDNANCE SURVEY PLAN**

The historical maps shown were reproduced from maps predominantly held at the scale adopted for England, Wales and Scotland in the 1840's, ie 1:2,500 the 1:2,500 scale was adopted for mapping urban areas; these maps were also produced at scales like 1:10,560 maps. The published date given on the right therefore often some years later than the surveyed date. Before 1935, all OS maps were based on the Cassini Projection, with independent surveys of a single county or group of counties, giving rise to significant inaccuracies in outlying areas.

In the late 1940's, a Provisional Edition was produced, which updated the 1:10,560 mapping from a number of sources. The maps appear unfinished - with all military camps and other strategic sites removed. These maps were initially overprinted with the National Grid. In 1970, the first 1:10,000 maps were produced using the Transverse Mercator Projection. The revision process continued until recently, with new editions appearing every 25 years for urban areas.
