- PROPOSED SPECIMEN TREE.
- PROPOSED NATIVE HEDGEROW.
- PROPOSED NATIVE UNDERSTOREY.
- PROPOSED BULB PLANTING.

NOTES

This drawing should be read in conjunction with the 'Planting Schedule & Maintenance Notes' which form the submission for Condition Compliance.

These planting proposals have been prepared without the benefit of drawings illustrating the location of underground services. It is therefore the responsibility of the client to provide the main landscape contractor with this information so that planting does not compromise drainage runs or utilities in any way.
