Tracey,

I have attached an image to assist you and can confirm that the roof will be a simulated lead finish with dummy look-a-like lead rolls running from ridge to eaves at 600 nominal centres.

Hope this helps.

Many thanks,

Best Regards,

Jason Wilson

Hi Jason,

I have updated the description. You should be able to see this on the public system tomorrow.

Once I have received more details with regard the roof material, I should be able to sort out this application quite quickly.

Regards

Hi Jason

I'll forward your email to Tracey as she's dealing with the application.

Thanks,

Kate

This application should be dealing with both conditions Kate.

This is my mistake.

Can you amend the application to deal with both conditions please because the info is shown on the design plans that accompany the application forms

Can you please reply to acknowledge receipt of this email.

Many thanks,

Best Regards,

Jason Wilson

Hi Adrian

I'm just reviewing my file on the outstanding condition and it would appear we still haven't received the details in relation to condition 4 of
H09-0241-14 (2 Osier Road). This relates to details of design and positions of external boxes for gas and electricity supplies and of any gas flues and soil vent pipes. H16-0829-14 which is currently being dealt with only seems to apply to condition 3 (external materials). Can you let me know when we can expect condition 4 details to be submitted.

Thanks for your help,

Kate
