Hi Chris

Further to out meeting on site at 24 Red Lion Street with David Munson on Tuesday 6 April.

The brick that you prefered from the two new samples was is called a **Standard Bulmer Red Facing Brick** and we propose to use this for the repairs to the building (the other sample was a Hampton Court Facing Brick).

I would pleased to receive confirmation from you that the Authority approves the use of a **Standard Bulmer Red Facing Brick** for repairs to the building. As the cost of the bricks is substantial and the time to make them is about four weeks David Munson will not be ordering the bricks until I have your approval.

When the bricks have been delivered to site David Munson has agreed to retain the services of Dr Carrington an historic brick specialist to prepare a sample panel of repointing on the building for your approval, before the work recommences.

I look forward to recieving hearing from you.

Regards

Jonathan

Hi Chris

David Munson has now obtained another sample from Bulmer Brick that should with luck fit the bill. Can we arrange to meet on site to look at the new sample at your earliest convenience.

Please let me know the soonest time and date that you are available.

regards Jonathan

Afternoon Jonathan,
Just back in the office today after a couple of days leave. Would tomorrow at 2.30pm suit?
Regards
Chris

Morning Jonathan,

Richard Fidler has asked me to pick up on this one as Liz is tied up with grant work at the moment. I'm only in the office tues, weds and thurs next week, the afternoons of which are all clear at the moment.

Regards
