

SPALDING TREE PRESERVATION ORDER NO.53 1993.

Horse chestnuts adjacent to Pinchbeck Road.

Recommended works:

Remove all dead wood present.

T1, No works proposed; presume outside of the ownership of South Holland District Council.

T2, 25% reduction in canopy overall. Prune to give required clearance over road as recommended by Highway Authority and balance canopy over amenity area (no wires to clear).

T3, 30% reduction in canopy overall. Prune to clear pole supporting wires, streetlight and to give required clearance over road as recommended by Highway Authority. Reduce limbs over amenity area to balance. Remove rubbing branches if required to improve structure of tree.

T4, 15-20% reduction in canopy overall. Prune to clear wires, where possible to give maximum clearance without destroying main structural branches of tree. Prune to give required clearance over road as recommended by Highway Authority. Minor reduction of limbs over amenity area to balance.

T5, No works proposed; outside of the ownership of South Holland District Council.

Reduce hedgerow to no lower than 4 metres in height.

Retain healthy elm suckers, as trees above general hedge line.
