Eligibility

Permitted development rights are subject to conditions set by legislation to ensure that only appropriate proposals are eligible.

The need to apply to the Local Planning Authority to see if prior approval is required is one such condition.

The questions below will help determine if the proposals are eligible for this permitted development right.

The current building and site

Has the building been vacant for a continuous period of at least 3 months immediately prior to the date of this application?

- [x] Yes
- [ ] No

Has the use of the building, for a continuous period of at least 2 years immediately prior to the date of this application, been any of the following:
• For periods prior to 1 September 2020
- Shops (Use Class A1);
- Financial and professional services (Use Class A2);
- Food and drink (Use Class A3)
- Business (Use Class B1);
- Medical or health services
- Non-residential institutions (Use Class D1(a));
- Crèche, day nursery or day centre
- Non-residential institutions (Use Class D1(b));
- Indoor and outdoor sports
- Assembly and leisure (Use Class D2(e)), other than an indoor swimming pool or skating rink;
• For periods from 1 September 2020
- Commercial, Business and Service (Use Class E)

- [x] Yes
- [ ] No

Does the cumulative floor space of the existing building exceed 1,500 square metres?

- [ ] Yes
- [x] No

Is any land covered by, or within the curtilage of, the building:
• in a site of special scientific interest;
• a listed building or land within its curtilage;
• a scheduled monument or land within its curtilage;
• a safety hazard area;
• a military explosives storage area;
Or, is the building:
• in an area of outstanding natural beauty;
• in an area specified by the Secretary of State for the purposes of enhancement and protection of the natural beauty and amenity of the countryside;
• in the Broads;
• in a National Park;
• in a World Heritage Site

◯ Yes
⊘ No

The proposed change of use

For applications, submitted before 1 August 2022, proposing a change of use to Dwellinghouses from Offices (Use Class B1(a)/E(g)(i)).
Is/Was there an Article 4 direction in place that has removed these specific permitted development rights?

◯ Yes
⊘ No / Not relevant

Will all the proposed new dwellinghouses have gross internal floor areas of at least 37 square metres, and comply with the nationally described space standard?

⊘ Yes
◯ No

Following the development, will every dwellinghouse in the building remain in use within Use Class C3 and for no other purpose, unless that purpose is ancillary to the primary use as a dwellinghouse?

⊘ Yes
◯ No

Agricultural tenants

To be eligible for this permitted development right, all parties to any agricultural tenacy agreements that are currently in place need to provide consent.

This is to help ensure that agricultural tenants are not displaced to allow a change of use to be carried out.

Is any part of the land covered by or within the curtilage of the building to be demolished occupied under any agricultural tenancy agreements?

◯ Yes
⊘ No

Fire Safety

Where the building (as proposed) exceeds certain limits, legislation has been put in place to ensure the adequate consideration of fire safety by the Local Authority (including its decision to grant prior approval) and other relevant parties.

Would the proposed development result in a building that contains one or more dwellinghouse, and is:
• 18 metres or more in height (as measured from ground level to the highest part of the roof); and/or
• Contains 7 or more stories

◯ Yes
⊘ No

Description of Proposed Works, Impacts and Risks

Proposed works

Please describe the proposed development including details of any dwellinghouses and other works proposed

St Barnabas Hospice Trust (Lincolnshire) operated a Hospice Day Centre at 2 Clover Way, Spalding for for over 20 years for the benefit of our patients. The day care centre is arranged around the original plan of a four bedroomed detached bungalow. The accommodation is currently arranged on the ground floor. An entrance hall leads through to the main lounge extending to provide over 300sqft of space. In addition is a separate room which could be used as a dining room with a number of bedrooms off. A kitchen has a separate utility room, in addition to which are 2 separate WC's.
2 additional rooms, one of which in effect being a double room used as a double office suite, having a WC/bathroom off. The building is of an unconventional plan shape, benefits from double glazed windows and has modern gas fired central heating system. To the front of the property is a hard surfaced parking area being landscaped with parking for over 20 vehicles. To the rear of the property is an enclosed private garden area.

The proposed development is to reinstate the property back to a residential dwelling through the addition of a family bathroom per the attached drawings.

Please provide details on the provision of adequate natural light in all habitable rooms of the dwellinghouses

The original building was built as a residential bungalow. There are no proposed changes to the building that will materially affect the existing provision of adequate natural light - see existing and proposed layouts (attached to the application). All rooms, with the exception of a small study room and separate WC have at least one window that providing natural light.

What will be the net increase in dwellinghouses?

1

This figure should be the number of dwellinghouses proposed by the development that is additional to the number of dwellinghouses in the existing building prior to the development.

Impacts and risks

Please provide details of any transport and highways impacts and how these will be mitigated, particularly to ensure safe site access

The property is located in a residential neighbourhood on the corner of Clover Way and Wygate Park, opposite a Lincolnshire Co-operative Convenience Store.
To the east and to the north are residential properties with residential properties surrounding on Wygate Park. The proposed change of planning use from a hospice day-centre back to residential dwelling brings the property back into line with most other properties in the area. It is strongly anticipated that the impact of traffic, parking and safe access will be lowered with the change of planning use.

Please provide details of any contamination risks and how these will be mitigated

N/A

Please provide details of any flooding risks and how these will be mitigated.

The property is located within a Flood Zone 3a area. St Barnabas commissioned HWA Consulting Engineers to undertake a flood risk assessment on its behalf - attached to this application.

A flood risk assessment should accompany the application where the site:
• is in Flood Zones 2 or 3; or
• is in an area with critical drainage problems (such areas will have been notified to the Local Planning Authority by the Environment Agency).
Check if your site location is in Flood Zone 2 or 3 online
Check with your Local Planning Authority to see if your site is in an area with critical drainage problems.

Please provide details of the impacts of noise from any commercial premises on the intended occupiers of the new dwellinghouses and how these will be mitigated

Clover Way is situated in an existing residential neighbourhood and the noise impact of any local commercial premises (namely the local convenience opposite) will be minimal and not require any mitigating action.

If the building is located in a conservation area, and the development involves a change of use of the whole or part of the ground floor. Please provide details of the impacts that the change of use will have on the character or sustainability of the conservation area and how these will be mitigated

The property is not located in a conservation area.

If the building is located in an area currently in use for general or heavy industry, waste management, storage and distribution, or a mix of such uses.
Please provide details of the impacts on intended occupiers of the development of the introduction of residential use in the area and how these will be mitigated

N/A

If the proposal involves the loss of services provided by a registered nursery, or a health centre. Please provide details of the impacts on the local provision of the type of services lost and how these will be mitigated

The Hospice Trust has relocated it's Day Centre to rooms within the nearby Johnson Community Hospital, Spalding. There is no impact on the provision of local services.

List of flats and other premises in the existing building

Please provide a list of all addresses of any flats and any other premises within the existing building
