This message originated from outside your organization

Hi Jon,

Ref you email below, I can confirm that is correct – roads and footways are intended to remain private within the application area.

Regards
Adam

Morning Adam.
I am just going through the details for your current Planning Application for Phase 2 of the Lincs Gateway development in Spalding.
Can you confirm (as I infer) that the intention is for the internal roads and footways to remain private, as they are for Phase 1 of the same development.
Thanks,
Jon.
