Please describe the activities and processes which would be carried out on the site and the end products including plant, ventilation or air conditioning. Please include the type of machinery which may be installed on site:

The processes are limited to standard bar operations. No cooking or preparation of hot food will take place on the premises, eliminating any potential for odour nuisance.

The plant and machinery to be installed are typical for a small-scale bar and include:

A commercial espresso machine and coffee grinder.

Under-counter refrigeration units for bottles and drink storage.

A sink and/or a small glasswasher for cleaning glassware.

A small, self-contained ice machine.

All machinery is electrically powered and generates minimal noise.

Ventilation will be primarily passive, through the servery window and door during operational hours. An optional small, low-profile air conditioning unit may be installed, with the external condenser located discreetly on a non-visible elevation to minimise any visual or noise impact.

By virtue of the fact that this application seeks the long-term siting of a structure within the curtilage of a listed building, this proposal is not permitted development and therefore does require planning permission. Listed Building Consent is not required, unless the structure is proposed to be in some fashion affixed to any static aspect of the existing above-ground development on site.

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
