I am concerned of the impact that this application will have on nearby properties if used as an outside bar. If it is to be used as an outside bar there needs to be very strict licensing requirements that must be adhered to. I am also very concerned about the visual impact for properties bordering the building line particularly late at night with outside drinking. This application is also retrospective and the 'normal' planning process has been ignored. As a business owner who had to get full planning for an A/C unit and a heritage impact statement it somewhat smacks in the face of the planning process.
