Fulney Sand & Gravel is a part of the RJP Group. We are a small family run business started by my late father in 1975 primarily as an electrical contractor, over the years the business expanded and diversified operation to include building, plumbing, environmental services and most recently supply and haulage of aggregates.

Fulney Sand & Gravel operates out of 11 Kellett Gate where, our aggregates are stored and bagged. The front yard is the loading and storage area for Fulney Sand & Gravel and the rear yard is the hard standing lorry park for our units.

We employ 8 members of staff from office sales staff to lorry drivers and yard operatives.

We import our own aggregates and distribute in small loads to landscape gardeners, builders, local authorities and the general public.

Opening hours are 7am – 5pm Monday to Friday and 7.30am to 12.30pm on Saturdays.
