Construction Design & Management (CDM) Regulations
The proposed lighting scheme and this supporting documentation have been designed on the basis of the information provided by the client's brief. The client should ask the installer for maintenance and safety information where required under CDM regulations. Thorn Lighting Limited or its staff have not carried out a CDM risk assessment of this design.

Lighting calculations have been performed according to BS or IES standards and good design practice. Some difference between calculated values and those calculated may occur due to calculation methods, testing procedures, component performance, field conditions and assumptions made by the design team/client, e.g. room surface reflectance. Such differences may typically be ±10%. Emergency lighting calculations are only indicative and there is no liability for non-performance will be accepted.
The information presented here is for guidance only and Thorn Lighting Ltd accept no liability for non-performance or subsequent use of this information. This drawing has been issued for consideration only, and does not constitute a contract in any form.
