Thank you for consulting us on this matter.
An archaeological evaluation was undertaken in December 2025 as a result of application H16-1022-25. A report detailing the results has been submitted, which confirms that no archaeological remains of significance were identified.
Consequently, no further archaeological input is required for this application. It is therefore not necessary to consult us again unless there are material changes to the proposals. However, should you wish to seek further advice, please contact us and explain the nature of your request.
Kind regards,
