1.0 Introduction

1.1

This Transport Statement accompanies a full planning application by Mr D Wood for the development of a site off Roman Bank, Spalding.

1.2

The proposal seeks to develop the site to provide a residential scheme comprising of twelve 1 bedroom apartments together with associated parking and communal amenity space. The proposal at its heart aims to create an affordable, sustainable high quality development that will contribute to the settlement of Spalding.

1.3

This statement forms part of a series of reports and documents submitted in support of the planning application.

2.0 Existing Conditions

Site Location

2.1

The application proposals relate to the development of existing scrub land within the Defined Settlement Limits of Spalding. The site itself is situated off Roman Bank, a residential road off one of the main routes in Spalding Holbeach Road (A151).

Existing Usage

2.2

The site is currently scrub land site area of 0.08 hectares. The site is subject to a current implemented planning permission H16-1031-07. Vehicular and pedestrian access to the site is from Roman Bank.

2.3

To the north the site abuts Lansdowne Court, three storey residential apartments and to the south abuts a former builders yard which has recently been granted planning permission for residential development. To the west of the site is the River Welland and to the east of the site is the site of the former Welland Hospital now demolished.

2.4

The area immediately surrounding the site is a mix of residential with some commercial properties. Roman Bank is predominantly residential in character and largely comprises of two and three storey dwellings in both traditional forms and as apartments.

Location of site within the town of Spalding

Local Area

2.6

Spalding is the largest town within the South Holland District. Spalding offers good amenities to its residents, such as:

- shops and post office;
- restaurants;
- primary and secondary education facilities;
- playing fields;
- community facilities
- public house's;
- employment opportunities;
- good links to public transport;
- and good links to surrounding villages, towns and cities.

Munro Medical Centre, West Elloe Avenue

Shop and Fish & Chip Shop along Holbeach Road

2.7

The proposed site lies to the north of the town centre with shops, schools, parks and public transport links all within walking distance of the site.

Local Highway Network

2.8

The application site lies on off Roman Bank off Holbeach Road. Holbeach Road is one of the main routes into the town and provides good public transport links to the nearby villages.

2.9

On a local scale, the site is accessible from a drive off Roman Bank which is a residential road built to modern LCC Highways standards. The carriageway has a minimum width of 5.0m and is served by pedestrian footpaths on both sides.

Spalding Railway Station

Gleed School

3.0 Proposed Development

3.1 General

This section establishes the level of proposed development and its relationship with regard to sustainable travel methods.

The proposal seeks to develop the site to provide a residential scheme comprising of twelve 1 bedroom homes together with associated parking and communal amenity space. The proposal at Its heart aims to create an affordable, sustainable high quality development that will contribute to the town of Spalding.

3.2 Walking

It is accepted that the most sustainable method of travel is walking, and as such new residents will be encouraged to make good use of local facilities within the town centre.

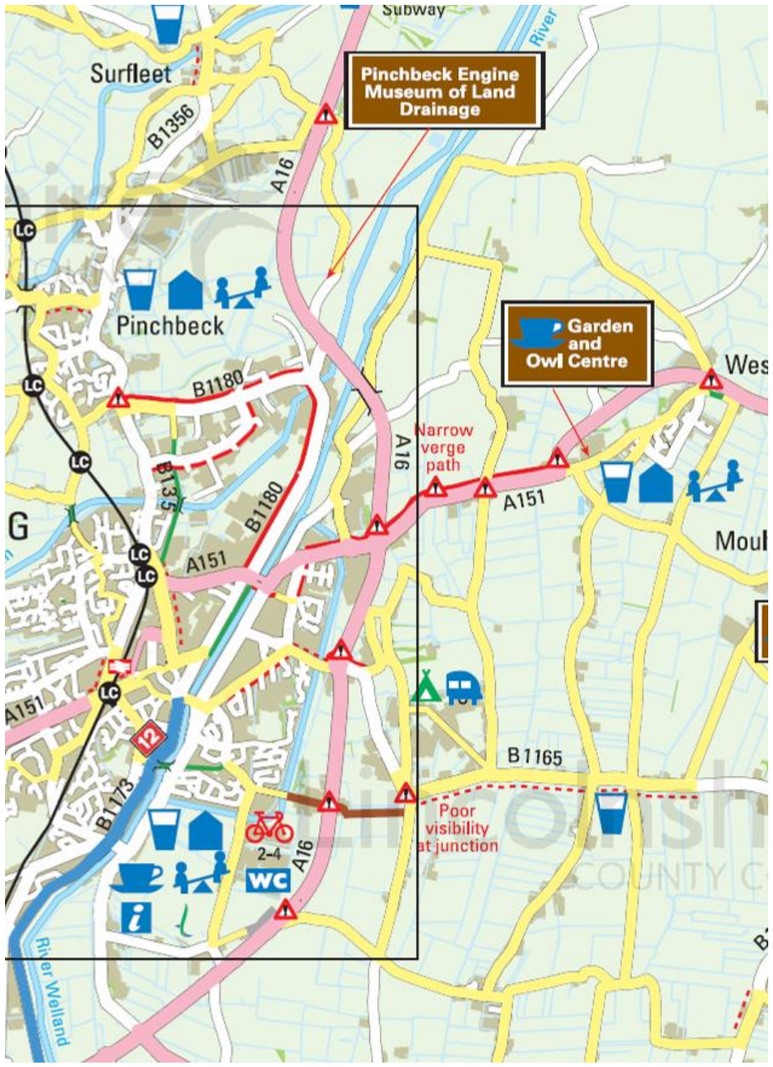
3.3 Cycling

Like many rural settlements, Spalding does not have many dedicated cycle lanes within the town centre and therefore cyclists will use the local road network.

The 'Cycling Map for Spalding and the Surrounding Area' (2012) published by Lincolnshire County Council identifies that the road network within Spalding consists largely of ;routes found useful by local cyclists—mainly on quiet roads.

3.4 Public Transport

The proposed site is within 2 minutes walking distance of a bus stop (along Holbeach Road) which offers regular bus services between Kings Lynn and Spalding via the Interconnect 505 service.



Extract from The Cycling Map for Spalding and the Surrounding Area (2012)

Peterborough is a further 69 minute bus journey from Spalding on the Interconnect 37 bus.

Spalding also benefits from its own train station with links to Peterborough and the East Coast Mainline.

From Peterborough there is a direct train service taking 51 minutes to London Kings Cross. As well as main lines running north, east and west.

3.5 Car Parking Provision

The proposed development seeks to encourage more sustainable methods of transport whilst accepting that the South Holland District is predominantly rural in landscape.

Each home will be provided with a minimum of 1 dedicated parking space each.

4.0 Conclusions

The proposed development consists of twelve residential dwellings. The site will have pedestrian and vehicular access from Roman Bank. All junction geometries/ visibility splays are considered suitable to accommodate the development traffic.

The site is situated within suitable walking and cycling distance to a number of facilities. It is also served by good frequency and easily accessible public transport services that connect the site well to the surrounding area.

In light of the above, the proposed development is considered to be acceptable with no significant impacts on the local transport network.
