Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply?

◯ Yes
⊘ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in The Environment Act 2021: "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:
Development site area of 0.2 hectares or below

Are there any priority habitats on your site (including any mapped priority habitats within 500m that may extend onto your site)?:
No

Can you evidence that you carried out a site assessment if the local authority disputes the presence of priority habitats?:
No

Please justify the reason why biodiversity net gain does not apply:
The application site area is 105 square metres (0.0105 hectares), below the 0.2-hectare threshold. The proposal is solely a change of use within the existing first floor, with no external works, ground disturbance or habitat loss. No onsite priority habitat would be affected. The development therefore qualifies for the exemption for sites of 0.2 hectares or below.

Please read the help text for further information why developments may be exempt or not in scope.

Details of the pre-application advice received

Informal advice was received from Planning Officer Oscar Patman by discussion and email on 5 October 2026, with further clarification on 4 November 2026, regarding the proposed independent first-floor commercial use. Advice covered the application documents, a proportionate Flood Risk Assessment, a separate Biodiversity Net Gain exemption statement, the existing first-floor use as ancillary to the public house, presentation of existing and proposed floorspace, and the appropriate ownership certificate following completion of the purchase. The advice was informal, without prejudice and not binding on the Council.

With respect to the Authority, is the applicant and/or agent one of the following:
(a) a member of staff
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
