5. Description of the Proposal

Please describe details of the proposed development or works including any change of use.

If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.

Current Facilities.
We have excellent playing facilities which the Club has invested heavily in over the last few years to maintain their standard as some of the best in the area.
We have 6 courts in total, including 3 all-weather courts which are also floodlight allowing evening tennis all year round to be played.
What we are lacking is an onsite Club facility which can be used by members socially and for parents when accompanying their children as a meeting point and point of shelter especially in inclement weather.
We believe that the Pavilion we seek to build would attract more people to the Club, especially Juniors.

Proposal Pavilion.
Spalding Town Tennis Club proposes to erect a Club Pavilion on a small portion of the Club's grassed area in between the Squash Club building and tennis courts as shown on the attached plans.

Background and Proposed Use.
We have looked at several options, including purpose-built sports club pavilions, but we feel the cost would be prohibitive and works would take longer, meaning longer disruption during the build period.
Our preferred option is a heavy-duty log cabin that will be 9 meters wide by 4 meters deep. We feel this size will give us a big enough space for the Junior section to use as a social space before, during and after coaching sessions, as well as tournaments and school holiday camps.
It is obviously also a place to take shelter from the rain, something we do not have now.

Specification.

This is the heavy-duty model log cabin with 70mm thick walls. Most others are 27mm or 44mm. This size is 9.3m x 4m.
The Lauren two room Clock house Log Cabin features as standard:
•70mm interlocking wall logs
•Conical tongue and groove for stability
•Double glazed real glass doors and windows
•Two internal rooms
•Ten windows
•Shingles Roof finish
•Tanalised foundation beams
•Wind and watertight connections
•28mm Tongue and Groove Roof Boards
•28mm Floor

Hi Martin,

I remember that I gave you advice about the proposed log cabin and that stills stands.

23. Pre-application Advice

Permitted development rights under Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended) allow householders and business landowners to improve and extend their homes and premises without the need to apply for planning permission.

Spalding Town Tennis Club is not a householder, neither an agricultural business nor industrial business but a private sports club. There are not permitted development rights for such institutions. Therefore, you should sought planning permission. As I told you, I dealt with similar development for other sport clubs in Spalding. The main consideration would be whether the unit has a good relationship or not with the nearest buildings and structures, especially dwellings.

You can submit the full planning application online on Planning Portal (www.planningportal.co.uk). For further question about the application submission and fee payment, please contact the Support Planning Team on 01775 764723.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
