20 July 2003

Dear Sir

15 Windsor Drive Spalding – Application no: H16/1094/02

I refer to the approval of the two storey extension included in the above application (copy of relevant section of plan enclosed).

During discussions with my builder regarding the internal layout it has become clear that a slight increase in the width of the new building would resolve problems he is experiencing in the proposed fitting of units I require on both the ground and first floor. I realise that this should ideally have been considered at pre application stage but wondered whether a change in dimensions from 2760 to 3050 (internal) and 3038 to 3328 (external) could be accepted as an approved amendment to the original plan.

Please advise whether the above request is acceptable.

Yours faithfully

R Tweddell (Mr)

F.A.O - Mr Peter Udy

Dear Mr Udy,

15 Windsor Drive, Spalding – ref H16/1094/02

I refer to the planning permission grated for the above property.

The first stage of the work is now underway and involves the renewal of the existing garage. The approved plans require new roof tiling to match existing. As the roof tiles to the house are some forty years old and along which most other roofs in the street are weathered and covered in algae, it is proving impossible to find even a close match. It is my intention to renew the tiles to the house during the second stage of the alterations and therefore I intend, with the Council's permission, to use new tiles for all roof coverings namely Redland bold rolled tiles in charcoal grey.

I would appreciate your approval of my proposals as I appreciate this deviates slightly from the approved plans.

Yours sincerely

Richard Tweddell
