Samples

Hanson Brick welcomes customers to visit its regional sales offices, showrooms and self build centres to view product samples and discuss particular requirements.

Photographic sample cards are available for all products on request from your local Hanson Brick stockist, or you can order them on-line through the website.

The Hanson Brick Distributors Charter

The Hanson Brick Distributors Charter has been established to improve standards in the promotion and distribution of Hanson products. It is intended to set benchmarks for competency and encourage clarity and transparency throughout the trading process.

The nature of today's business world demands clear and concise trading practices *in order for our customers to have confidence in the ongoing use of brick.* This confidence is reinforced by our determination to meet and exceed expectations at all times.

Further range information

If you require design guidance, or wish to discuss the suitability of your chosen brick type for a particular application please do not hesitate to contact our Technical Department. Or visit our website at www.hansonbrick.com
