

Sales and Service

Hanson Brick is committed to achieving consistent standards of quality and to this end all bricks in the Butterley range conform to the requirement of BS3921:1985 'Specification for Clay Bricks'. Hanson Brick also operates a quality assurance system to BS EN ISO 9001, and has gained registration under the BSI Firms of Assessed Capability scheme, allowing our bricks to carry the Kitemark. This mark can only be used after the product has been independently tested and manufacturing facilities visited and assessed.

Durability Designation

All of the brick products illustrated in this guide have been coded in accordance with the 1995 revision of BS3921 which contains durability designations for frost resistance and classifications for soluble salts content.

- | | |
|---|--------------------------------|
| F | - Frost resistant |
| M | - Moderately frost resistant |
| N | - Normal soluble salts content |
| L | - Low soluble salts content |

Other Products

In addition to this special selection from the Butterley brick range, clay pavers, decorative brickwork features and special shapes are also available.

The Natural Choice

The Butterley range from Hanson Brick has been developed to provide builders and designers with a choice of brick products unrivalled by any other manufacturer for quality, colour, texture and performance.

A range inspired by nature to provide - The Natural Choice.

As the UK's leading manufacturer we have made it our business to match choice with service. Our national Sales Team is geared to react quickly and efficiently to individual needs with sound practical advice and comprehensive technical support at every stage of the building process.
