Dear Sirs,

RE: DETAILS OF SURFACE WATER DRAINAGE
SPALDING GOLD CLUB, PARK LANE, SURFLEET.

I wrote to you on 3rd March 1993 regarding surface water details in respect of the above. To date I have not received a response. Unless I hear from you to the contrary within the next seven days, therefore, I shall assume you have no comments and determine the application.

Yours faithfully,

p.p. N. S. MIDDLEN

03 Mar 1993

Dear Sir,

DETAILS OF SURFACE WATER DRAINAGE
SPALDING GOLF CLUB, PARK LANE, SURFLEET.

With reference to your letter dated 4th February 1993 in relation to previous planning application ref: S17/0001/93, which granted permission for a replacement car park at the golf club subject to a condition reserving details of surface water drainage. I have now received the details as follows:

"Surface water disposal will be by way of 225 dia pipe to an existing pond adjacent to the entrance to the golf course. It is anticipated that the water from the pond will be drained into the new soke dyke/pipeline alongside the bypass. In the any reason the design of the soke dyke does not have sufficient storage capacity to accommodate this arrangement, the Golf Course has an internal drainage system approximately 150 metres to the east to which a pipe can could be laid".

I would be grateful for your confirmation that the details are acceptable.

Yours faithfully

23rd February 1993

Dear Sir

PROPOSED CAR PARK AT SPALDING GOLF CLUB, SURFLEET

Further to my discussion with Mr David Roberts, I am writing to confirm details for landscaping and surface water drainage to comply with the conditions of the planning permission.

As you are aware the Golf Course currently has the benefit of a substantial screen of trees and hedging along the boundary with the disused Boston to Spalding railway.

Although the hedge will remain, the majority of the trees will be removed under the supervision of the Department of Transport to enable the Spalding Bypass to be constructed. The Department of Transport are committed to replacing any trees removed once construction work allows and they have commissioned R.P.S. Watson to design a landscaped belt for the full frontage of the Golf Course. You will appreciate these works are outside my clients control, but I trust you will accept that in due course satisfactory landscaping will be provided.

Surface water disposal will be by way of a 225 dia pipe to an existing pond adjacent to the entrance to the golf course. It is anticipated that the water from the pond will be drained into the new soke dyke/pipeline alongside the Bypass. If for any reason the design of the soke dyke does not have sufficient space capacity to accommodate this arrangement, the Golf Course has an internal drainage system approximately 150 metres to the east to which a pipeline could be laid.

The Golf Club is already experiencing difficulties with their existing car parking arrangement and they therefore intend to construct the new car park immediately.

If for any reason the proposals contained in this letter are unacceptable please contact either Tom Chambers at the Golf Club or myself.

Yours faithfully

pp

Mr D Roberts

DJR/JJ H17/156/93

20 Apr 1993

Dear Sir,

CONDITION COMPLIANCE, SPALDING GOLF CLUB, SURFLEET.

The details relating to the surface water drainage for the above have now been approved. A separate decision notice has been dispatched. Regarding the landscaping for the development. I agree with the contents of your letter dated 23rd February 1993 that the scheme to be prepared for the By-Pass will serve to screen the development of the car park. Accordingly therefore I am prepared to await finalisation of the Department of Transports proposals to cover the landscaping condition, on the basis that the existing hedge will remain.

I trust this is of assistance.

Yours faithfully

S Mellon
