Change of use into a Dog Training Centre.
In-keeping with the local landscape, grass will be kept but a grass protector mesh will be put down in the gateway and parking area to protect the grass but enable us to keep grass there to keep the site visually pleasing. During bad weather classes will most likely be cancelled, but with bad weather, parking zone will be confined to near the gateway so that it can be meshed. During good weather, students will be able to drive right up to the training area and park alongside.
A small 30m approx square will be laid with astro-turf to allow for training in bad weather. This is especially important for students with mobility scooters that would otherwise get stuck in the mud.
A water tap to be installed just inside the gateway (Anglian Water have approved this and are just waiting for us to get the pipe installed to be able to inspect and install their section).
Fencing to be installed around the perimeter of the property to make it secure and prevent loose dogs from being able to get onto the road. The fences will be planted so that longterm, the visual of the site will be more pleasant and more in-keeping with the local landscape.
Temporary removable floodlights will be used occasionally during the winter months when daylight hours are significantly reduced for safety reasons.
