

KEY

Existing Trees to be removed

Existing Trees to be retained

Existing Hedges to be retained

New tree planting

Refuse/Recycling Strategy: Each home is to be provided with internal refuse/recycling bins. Once the sacks from the internal bins are full they can be taken and stood in 240 litre external wheelie bins, within the private gardens. All residents will be required to join a Management Company who will employ an operative to move the wheelie bins on their behalf. On the day of collection the wheelie bins can be wheeled to the front of the site, emptied onto the kerb side and then returned to each private garden.
