

HEALTH & SAFETY.
The Employer/Cliant shall ensure that the selected contractor is conversant with and adopts all measures necessary to achieve compliance with Health & Safety legislation for Building Sites and Work Places.
The Employer /Cliant is advised that should the works need to comply with the Construction Design and Management Regulations an independent Planning Supervisor will be required.

This site plan illustrates the layout of a building complex and its surrounding areas. The building footprints are shown in grey, with a large L-shaped structure at the top and several smaller rectangular buildings below it. A red line, likely representing a proposed path or boundary, starts at the top left, runs diagonally, and then curves around the right side of the building complex. Elevation markers are provided along this path and at various points throughout the site. Key features include a 'POND' area, a 'PARKING' area, and a 'PLANTING' area. The plan also shows a 'ROAD' and a 'DRAINAGE' system. The overall layout suggests a well-planned development with clear circulation and drainage paths.

[illegible]

A map of Gosberton Fen Farm. A red-outlined area is labeled 'Drove Farm'. To the north of this area is a 'Field House' and 'LITTLE LANE'. A distance of '3.2m' is marked between the red-outlined area and the lane. A 'Drain' is shown running along the eastern and southern boundaries of the red-outlined area. A north arrow is located in the top left corner.
