South Holland District Council operates a weekly collection for both materials for recycling and refuse. I note that part of this proposed development will be serviced by a private road and therefore residents here will need to present their black and green sacks at the point the public road meets the private road. As Surfleets refuse and recycling day both fall on a Monday please may I be advised of the positioning of these sacks in order to minimise any disruption to households at the edge of the private drive. Thanks you
