Application H17-1097-23
Location Land East of Surfleet Bank and West of Woad Farm Surfleet
Proposal Proposed plant based protein extraction facility and anaerobic digester plant

Name Parish Clerk
Address Surfleet Parish Council

Date Submitted 15-01-24
For/Against Objections

As a parish council we have a number of comments to make. Due to the timing of this application, over the Xmas and New year we have not had sufficient time to review in detail. Despite this we organised a parish meeting at just five days notice and 70 residents attended to express their concerns. A number of reports appear missing around drainage, highways impact and wild life assessment, other organisations have already commented on this aspect. The application does not appear sufficiently complete for an accurate assessment on the impact to be made on Surfleet village. The parish council will be arranging a further meeting at the request of parishioners and will seek the attendance of the applicant Naylor farms and a member of SHDC planning department, in the meantime we believe this application should be deferred to allow this to take place and for missing reports to be provided. LCC highways will need also to consider access to the factory from the A16 which is a fast busy main trunk road.
