Subject: RE: Attention Sharon Nolan. Ref H17-0600-13 South Holland

Dear Rob,

Sharon is currently on holiday but I can confirm that the Environment Agency position in respect of this proposal would not change from the views that we expressed previously. Although the Council's Strategic Flood Risk Assessment has been updated since the time of your last application, there is no significant change that impacts this location and the Flood Risk Assessment previously submitted appears to contain sufficient information to support any new application you may wish to make.

I hope this is the information you require but please let me know if there is anything further I can help you with.

Kind regards,
Annette
