Subject: 117 Bridge Road, Sutton Bridge

Good Afternoon David,

With reference to our telephone conversation regarding planning permission on land to the rear of 117 Bridge Road, Sutton Bridge.

I would like to confirm that the palisade fencing surrounding 117 Bridge Road will be steel posts fixed by concrete foundation.

The extra area for parking will be used for staff and company vehicles to be parked. Also should any spare space be left, the possibility for vehicles left on the roadside may be permitted.

If any CCTV is erected, it will not be faced towards any neighbouring property.

Any lighting would be of low level so not to affect any neighbours privacy.

Kind Regards

Mr. John Cooper
