## ***Wisbech Yacht Harbour - Auxiliary Pontoon - Brief Description of Works.***

### *Location:*

Port Sutton Bridge, Lincolnshire. West bank of River Nene approximately 250 metres below Cross Keys Swing Bridge. (Main A17 trunk road). OS - TF 482,213

### *Proposal:*

a) The installation of a 30 metre floating, wooden decked pontoon secured to three, tubular piles driven in to the river bed. No shoreside access will be available for boat users. (See photograph with proposed structure drawn in). The pontoon would be in three, 10 metre sections.

The object is to provide a short term waiting facility for small craft which are either requiring to transit the swing bridge (upstream) or awaiting the next high tide in order to depart the River Nene seawards. No charges would be levied for mooring here over and above that which is otherwise charged for remaining in Wisbech Yacht Harbour proper.

b) To locate with five tubular piles, the existing pilot berth pontoon situated immediately below Cross Keys Swing Bridge (see photograph) and therefore replace the existing ground tackle which presently secures the structure to the river bank.

These additional works would provide further short term mooring for small craft on the upstream and downstream ends of the pilot berth. Again, no shoreside access would be available to small boat users. (See drawing).

### *Method:*

To carry out the work with the temporary location on site of a floating piling platform, all work being conducted from the river. No materials or works will cross the river bank. All pontoon structures will be craned in to the river through Port Sutton Bridge quayside and floated in to position.

No restriction to navigation is envisaged and in any case, all works will be monitored by the port authority.
