Application H18-0682-25
Location The Rookery 171 Rookery Road Sutton Bridge PE12 9QG
Proposal Change of use of agricultural building to dwelling

Name Oliver Abrams
Address SHDC Environmental Protection Officer

Date Submitted 08-09-25
For/Against No Observations

I have reviewed the screening assessment form dated 15/08/2025 with site photographs and request a precautionary land contamination condition be applied at this location, as follows:

In the event that contamination is found at any time when carrying out the approved development that was not previously identified it must be reported immediately to the Local Planning Authority (LPA). An investigation and risk assessment must be undertaken in accordance with details to be agreed with the LPA. Where remediation is necessary, a remediation scheme must be submitted to and approved in writing by the LPA. Following completion of measures identified in the approved remediation scheme a verification report shall be submitted to and approved by the LPA.

No deviation shall be made from this scheme without the express written agreement of the LPA. If during redevelopment contamination not previously considered is identified, then the LPA shall be notified immediately and no further work shall be carried out until a method statement detailing a scheme for dealing with the suspected contamination has been submitted to and agreed in writing by the LPA.

Reason: To assess whether the site is polluted and to address any pollution to ensure a satisfactory development. This issue is integral to the development and therefore full details need to be finalised prior to the commencement of works.

This Condition is imposed in accordance with Policy 30 of the South East Lincolnshire Local Plan, 2019.
