THE INCLUSION OF A WALL, FENCE OR HEDGE DOES NOT NECESSARILY REPRESENT A LEGAL BOUNDARY. IT IS THE CLIENTS RESPONSIBILITY TO CONFIRM LEGAL BOUNDARIES WITH THE VENDOR

The deposited plans have been examined against the criteria set out in the Building Regulations. It is neither practical or reasonable to show all relevant matters on working drawings, the fact that minor variations in the type of subsoil within the local area and not weaker type of soil exists below the soil on which the foundations res within such depth as may impair the stability of the structure.

Developers are advised that there is no made ground or wide variations in the type of subsoil within the local area and not weaker type of soil exists below the soil on which the foundations are within such depth as may impair the stability of the structure.
