## KEY LISTING

SOUTH HOLLAND D.C.
BUILDING CONTROL
03 JUN 2005
REF

Developers are advised to establish
there is no made ground or wide
variations in the type of subsoil
within the loaded area and no
weaker type of soil foundations rest
soil on which the building is erected
within such depth as may impair the
stability of the structure.

The deposited plans have been examined
against the criteria set out in the Building
Regulations. It is assumed that all relevant matters of
reasonable to enquire into, the fact that only
working drawings have been examined
not mentioned specifically
matters is the builder from the carrying out of
failure to secure compliance in the carrying out of
site operations.
