FAO Jess Hill
Planning ref H18-0928-26
DIO ref 10072267

Dear Jess,

Thank you for consulting the MOD on application reference H18-0928-26

The Defence Infrastructure Organisation (DIO) Safeguarding Team represents the Ministry of Defence (MOD) as a consultee in UK planning and energy consenting systems to ensure that development does not compromise or degrade the operation of defence sites such as aerodromes, explosives storage sites, air weapon ranges, and technical sites or training resources such as the Military Low Flying System.

I can confirm that, following review of the application documents, the proposed development would be considered to have no detrimental impact on the operation or capability of a defence site or asset. The MOD has no objection to the development proposed.

The MOD must emphasise that this email is provided specifically in response to the application documents and supporting information provided on the South Holland District Council website as of the date of this email.

Amendments to any element of the proposed development (including the location, dimensions, form, and/or finishing materials of any structure) may significantly alter how the development relates to MOD safeguarding requirements and may result in detrimental impact(s) on the operation or capability of defence sites or assets.

In the event that any revised plans, amended plans, additional information or further application(s) are submitted for approval, the MOD, as a statutory consultee, should be consulted and provided

with adequate time to carry out assessments and provide a formal response whether the proposed amendments are considered material or not by the determining authority.

Kind Regards,

Anya

Anya Williams | Safeguarding Officer

Defence Infrastructure Organisation | National Armaments Director Group
