4. Description of Proposed Works

Please describe the proposed works:

Victorian semi-detached property which has fallen into disrepair and dilapidation since going to market several years ago.
Finding a buyer has proved problematic given the state of vacant possession and overgrown garden.
My client wishes to return this property into a habitable state, to do so requires extensive refurbishment inside and out.
In order to make this a comfortable family home, suitable for a modern family there is a need to enlarge and extend the property.
The proposed extension consists of a two storey rear new build element, linking into the existing in order to provide a further bedroom, a family bathroom, an open living area and enlarged kitchen.
The client has high material aspirations which we believe allow the proposed to tie-in with the design and form of the existing building. The existing fabric will be respected and repaired. Pitched roofs have been proposed to reference the original roof volumes. Traditional materials will be used, which are in keeping with a Victorian property. At the same time the proposed fabric will be much higher in its performance both thermally and acoustically.
The design of the proposed works to 338 Bridge Road has been carried out in tandem with that of 340 Bridge Road. This has allowed the design to be sympathetic towards one another, whilst ensuring building and material efficiencies. This process has also provided an opportunity to ensure that the appearance of elevations are broadly in-line with one another, in doing so the proposed design provides a high degree of symmetry which would be expected with a victorian era property.
This application will be followed up with a further application in order to change the use class of agricultural land behind the property's boundary. This land will later be adopted as garden space.

Has the work already been started without consent? ( ) Yes (•) No

5. Materials

Does the proposed development require any materials to be used externally? (●) Yes ( ) No

Please provide a description of existing and proposed materials and finishes to be used externally (including type, colour and name for each material):

Walls	
Description of existing materials and finishes (optional):	Pebble dash render in need of remedial action to repair and make good. Fresh paint will also be necessary.
Description of proposed materials and finishes:	External facing bricks to be chosen to compliment the original brick walls. Brick colour to be a red blend (as existing) with mixed hues to avoid a block colour appearance. Brick type to be of a hand thrown appearance to avoid a wire cut appearance - in keeping with the age of the property.

Windows	
Description of existing materials and finishes (optional):	Timber sashes to be repaired and re-painted. Glazing repairs where necessary.
Description of proposed materials and finishes:	New windows and doors to be aluminium composite system, velfac or similar. Polyester Powder Coated (PPC) finish. Colour to complement brick and render (dark grey / bronze) tbc.

Roof	
Description of existing materials and finishes (optional):	Slate Roof - to be re-felted and existing tiles re-instated. New tiles installed to replace fallen and broken tiles.
Description of proposed materials and finishes:	Proposed new build to compliment existing: Slate / Zinc tbc.

Doors	
Description of existing materials and finishes (optional):	Solid timber doors and frames to be repaired and re-painted. Glazing repairs where necessary.
Description of proposed materials and finishes:	New windows and doors to be aluminium composite system, velfac or similar. Polyester Powder Coated (PPC) finish. Colour to complement brick and render (dark grey / bronze) tbc.

Boundary treatments (e.g. fences, walls)	
Description of existing materials and finishes (optional):	Hedgerow and picket fencing to be retained. Smalls areas will need to be cut back and removed to allow construction work to take place.
Description of proposed materials and finishes:	As above

Are you supplying additional information on submitted plans, drawings or a design and access statement? (●) Yes ( ) No

If Yes, please state references for the plans, drawings and/or design and access statement

All proposed elevations indicate the proposed development with a linear hatch to illustrate the coursing of the bricks.
Proposed Roof Plan indicates the new build roof elements with a standing seam zinc roof. This could equally be a slated roof as mentioned above.

6. Trees and Hedges

Are there any trees or hedges on your own property or on adjoining properties which are within falling distance of your proposed development? (●) Yes ( ) No

If Yes, please mark their position on a scaled plan and state the reference number of any plans or drawings:

Details of the pre-application advice received

Flat roof element considered 'Unsympathetic'.
Extension to be re-designed to better reflect the existing design features.
To consider the use of 'Symmetry' when designing the elevations of 338 & 340 Bridge Road.

11. Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:
(a) a member of staff
(b) an elected member
(c) related to a member of staff

11. Authority Employee/Member

(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

○ Yes ◉ No

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

12. Ownership Certificates and Agricultural Land Declaration
