

RIVER NENE DOWNSTREAM OF WHARF STREET

7. Flooding Assessment

- 7.1 The South Holland Strategic Flood Risk Assessment determined the protection offered by the tidal defences in a cautious manner and in year 2002 these were deemed to provide the 1.0% standard of protection as recommended in PPG25 for a zone 3 area.

8. Site Cross Section

- 8.1 Ordnance datum related cross section has been sketched from the West Bank of the tidal River Nene along Wharf Street to the site.
