FOA David Gedney,

Please see the statutory advice provided in the corresponding email sent 20th April 2016 for Natural England's statutory response.

In summary, Natural England are content that the updates to the ECIP are in line with recent discussions and are also content with the proposed changes in width of the working platform under condition 3 of the application H18-1168-15. However we reiterate our position (as provided to SHDC on 31st March 2016) that we cannot agree to the MMO and DONG's overall conclusions of no Adverse Effect of Integrity to the site due to the impacts at an in-combination level from numerous elements of the ECIP works to the saltmarsh habitat and the uncertainty around the recovery.

Kind regards
Rebecca
