TIME TO END OUR TRANSPORT WOES

Call to introduce e-Bikes for hire - and better bus and rail connections

By **DUNCAN BROWNE**

@duncanbrowne

A proposed overhaul of public transport in our area is set to come under the microscope next week.

With the population growing and cuts made to services, getting from A to B in rural Lin-

colnshire too often involves a detour through C and a lengthy wait at D.

Whether it's jobseekers looking for employment, students attempting to get to further education centres or the elderly struggling to make vital appointments, the sparse nature of the county can make reaching destinations a time-consuming challenge

In a bid to combat this, the interim joint scrutiny report of public transport has been put together by members of the South and East Lincolnshire Council Partnership - following consultations with local groups, businesses and service providers, as well as other authorities.

The report puts forward proposals on bus and rail

links, while more modern modes of transport such as e-Bikes are also mooted.

Sutton Bridge-based Coun Chris Brewis - chairman of the task and finish group of members from South Holland, Boston Borough and East Lindsey - feels the proposals have 'more clout' if the 'three districts talk with one voice' and hopes the ideas will be

welcomed by Lincolnshire County Council, the Local Transport Authority.

He is also adamant that teamwork across a number of authorities will help get things moving in the right direction.

"It's a lack of joined up thinking between local government and central government and between government departments as

well, which makes it more difficult to negotiate," said Coun Brewis, who believes the report has some quick fix initiatives and others that would be bold proposals for the long term.

"I hope we can do something so innovative that they have to take notice and all departments will listen to us."
