CASE OFFICER ASSESSMENT

Proposal

Planning permission was granted for an agricultural barn in September 2003 (ref. H19-0380-03) and work was commenced - foundations are in situ. More recently, planning permission was granted for the erection of 5 bed two-storey barn style dwelling with integral garage, new vehicle access, fencing, landscaping and stable (ref. H19-0437-18).

Full planning is now sought to vary the design. Also, the floor plan is extended 3 metres to the east to improve the accommodation area. The garages are now detached and placed where the stables are.

Site Description

The site (some 0.09ha) is land associated with no. 41 Coronation Avenue and is mainly grassed, including foundations of a building previously approved. Native hedging and a drain are situated along the frontage and the North Level Internal Drainage Board's Main Drain is located to the south.

Policies/Constraints

The site adjoins the settlement limit for Throckenholt (Other Service Centre and Settlement) as defined in the South East Lincolnshire Local Plan, 2019.

The site is within Flood Zone 3 within the Environment Agency's Flood Maps but within an area designated as "no hazard" within the SHDC Strategic Flood Risk Assessment, 2017.

History

H19-0380-03 - Full - Erection of agricultural building - Granted 2 September 2003.

H19-0437-18 - Full - Erection of 5 bed two-storey barn style dwelling with integral garage, new vehicle access, fencing, landscaping and stable - Granted 3 July 2018.

Representations

Sutton St Edmund Parish Council - No response

LCC Highways/SUDS - Does not wish to restrict the grant of permission

North Level Internal Drainage Board - No objections in principle.

SHDC Environmental Protection - No comments or objections

LCC Archaeology - No archaeological impact

Planning Considerations

The main issues in this case are:

- Policy/principle;
- The likely impact upon the amenity of nearby residents;
- Highway safety;
- Other material considerations such as flood risk and drainage.

Policy/principle

In accordance with Section 38 (6) of the Town and Country Planning Act, as amended by the 2004 Act, the determination must be made in accordance with the development plan, unless material considerations indicate otherwise.

The site is outside Throckenholt Settlement Limit as defined in the South East Lincolnshire Local Plan, 2019. Policy 1 is therefore applicable. It indicates that development outside a defined settlement limit will only be permitted that is necessary to such a location and/or where it can be demonstrated that it meets the sustainable development needs of the area in terms of economic, community or environmental benefits.

In this case, however, foundations are in situ from a previous permission for an agricultural barn (H19-0380-03), although there is some doubt as to whether they are in the correct position and whether the previous permission has therefore been implemented. Even if this is the case, it is unlikely that the Authority would resist a retrospective application for the agricultural barn in the alternative position. Moreover, it currently has an extant permission for a dwelling (H19-0437-18). This application is solely to vary the scheme. In this case the aforementioned material considerations outweigh any policy objection.

Character/appearance

The previous proposal had the appearance of a barn. This is less so with the present scheme. However, existing development within the locality is generally varied, including semi-detached local authority houses and other dwellings of various styles and design. Taking this into consideration it would be difficult to resist the application on grounds that the proposal would materially harm the character/appearance of the rural locality.

The proposal is therefore in accordance with Policies 2 and 3 of the South East Lincolnshire Local Plan, 2019 in this respect.

Residential Amenity

The nearest property is No. 41 Coronation Avenue to the north. A detached house is situated to the north-west on the opposite side of the road (Cherrytree House). Colesbridge Farm is situated to the south on the opposite side of the North Level Main Drain. Given that the proposed dwelling would be situated on an almost identical footprint to the property previously approved, it is not considered that the revised scheme would materially harm neighbouring residents in terms of overlooking, lack of privacy, overshadowing, loss of light, overbearing effect, noise and disturbance, etc, subject to appropriate boundary screening.

The proposal is therefore in accordance with Policies 2 and 3 of the South East Lincolnshire Local Plan, 2019, which aim to protect the amenity of nearby residents, both existing and future.

Highway Safety

The County Highways Authority has raised no objections on highway safety grounds.

Other Material Considerations

Drainage - Foul drainage would be disposed of via a private treatment plant and surface water via a drain. The IDB have raised no objections in principle.

Flood Risk - The site is within Flood Zone 3 as defined within the Environment Agency's Flood Maps. However, it is within an area of no hazard within the South East Lincolnshire Strategic Flood Risk Assessment (March 2017). The proposal therefore passes the sequential test. In terms of the exceptions test, a finished floor level of 300mm above existing ground level would therefore be

appropriate.

Taking the above into account, the proposal accords with drainage and flood risk considerations set out in Policies 2, 3 and 4 of the Local Plan.

Conclusion

The site is outside Throckenholt Settlement Limit as defined in the South East Lincolnshire Local Plan, 2019. However, the proposal is solely to vary an extant planning permission (ref: H19-0437-18). This is a material consideration that outweighs development plan policy in this case.

The proposal complies with the relevant policies within the South East Lincolnshire local Plan, 2019 in all other respects.

It is therefore recommended that the application be approved under delegated powers.

Additional Considerations

Public Sector Equality Duty

In making this decision the Authority must have regard to the public sector equality duty (PSED) under s.149 of the Equalities Act. This means that the Council must have due regard to the need (in discharging its functions) to:

- A. Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act
- B. Advance equality of opportunity between people who share a protected characteristic and those who do not. This may include removing or minimising disadvantages suffered by persons who share a relevant protected characteristic that are connected to that characteristic; taking steps to meet the special needs of those with a protected characteristic; encouraging participation in public life (or other areas where they are underrepresented) of people with a protected characteristic(s).
- C. Foster good relations between people who share a protected characteristic and those who do not including tackling prejudice and promoting understanding.

The protected characteristics are age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation.

The PSED must be considered as a relevant factor in making this decision but does not impose a duty to achieve the outcomes in s.149. It is only one factor that needs to be considered, and may be balanced against other relevant factors.

It is not considered that the recommendation in this case will have a disproportionately adverse impact on a protected characteristic.

Human Rights

In making a decision, the Authority should be aware of and take into account any implications that may arise from the Human Rights Act 1998. Under the Act, it is unlawful for a public authority such as South Holland District Council to act in a manner that is incompatible with the European Convention on Human Rights. The Authority is referred specifically to Article 8 (right to respect for private and family life) and Article 1 of the First Protocol (protection of property).

It is not considered that the recommendation in this case interferes with local residents' right to respect for their private and family life, home and correspondence, except insofar as it is necessary to protect the rights and freedoms of others (in this case, the rights of the applicant). The Council is also permitted to control the use of property in accordance with the general public interest and the recommendation is considered to be a proportionate response to the submitted application based on the considerations set out in this report.
