Application H19-1257-16
Location Barns adjacent: 66 Broadgate Sutton St Edmunds Spalding
Proposal Conversion of barns into dwellings

Name J Reith
Address Environmental Health Technician Safety and Environment

Date Submitted 04-01-17
For/Against Comments

The initial contamination report provided with the application does not identify the historical landfills which surround the site. Details of these landfills can be found on the waste maps on the Environment Agency's Website. I therefore request the contaminated land condition for this application.
